

Willow Class Home Learning

Autumn 1

Home Learning will be uploaded onto Google Classroom each **Friday**. Please upload your response by the following **Friday**. This will be Maths and Phonics/Spellings.

Please ensure that your child is reading at least **three times** per week. We will change our reading books on a Friday.

This half term, we ask you to support your child to complete 2 pieces of topic home learning, with hand in dates spread across the 6 weeks. Completed home learning should be brought in so we can share it in school and add to our display or photographed/videoed and put on Google Classroom please.

Hand in dates:

1. Friday 3rd October
2. Friday 23rd October

Create a map of your local area with a key.	Research and draw your favourite animal. Which animal group does it belong to? What is their diet? Where is their habitat?	Research the artist Kandinsky and paint one of your favourite pieces of his artwork.	Try balancing in different ways for example one hand and one foot or two elbows and one foot. How many different ways can you find?
Use a map with a key to direct yourself around an area of your choice e.g. Crealy, World of Country Life, Haldon Forest etc.	Go on a technology hunt in your home and create some rules for using technology safely.	Visit a zoo or farm and take pictures to share with the class as part of our 'Animal Kingdom' topic. What did you learn about the animals you visited?	Retell the Creation story through a media of your choice e.g. art or dance.

If you are struggling with any aspect of Home Learning, please don't hesitate to contact us.

Have fun!
